## APN Setup Guide

Guide Content:
1 x Cudy LT500

Cudy Backend Setup:

1. **Connect a Laptop to the router via Wi-Fi or Ethernet.**

2. **In a Web Browser**: (*e.g., Chrome, Edge, Safari…*) type & enter the following address: *192.168.10.1* to access the router's backend login page.

3. **Type the password**: *admin*

4. From the top menu select "General Settings".

5. You will land within the "3G/4G" Settings page and "APN" tab.

6. Change the "APN Profile" to *Manual*

7. Below in "APN" insert the *APN provided by your ISP* with your SIM *e.g., Iot.tmowholesale* and click "Save".
